Well, the night makes moves and she shatters like  
broken glass  
Better play it cool, better let it pass  
Have you been screening your smokes?  
And whispers in an all night bar  
Better off as the fool than the owner of that kind of  
heart

They don't know you anyway  
They don't know you  
And they don't watch you walk away

Just a nobody girl with a radar to the scene  
When the emptiness finds you, you find all the  
numbers you need  
Say you follow your heart well, honey, you're just being  
lost  
You could follow your gut but how much would it cost?

They don't know you anyway  
They don't know you  
They don't watch you walk away

You're nobody, girl  
You're nobody, girl  
You're a nobody, girl

You're nobody, girl  
You're nobody, girl  
You're a nobody, girl

The night plays games and the people, they come and  
go  
Well, they trade in their pieces for a late-night ride on  
your rodeo  
If your horses could talk, I wonder if they would  
complain  
I know you're rested and ready, they've been going  
nowhere for days

They don't know you anyway  
They don't know you

They don't even mind the weight

You're a nobody, girl  
You're a nobody, girl  
You're a nobody, girl

You're a nobody, girl  
Nobody, girl  
Nobody, girl

You're nobody, girl  
Nobody, girl  
You're a nobody, girl

You're a nobody, girl  
Nobody, girl  
You're a nobody, girl

You're nobody, girl  
You're nobody, girl  
You're a nobody, girl
