God, please bring the rain
Yeah, and bring it soon
Let it flood right through the houses
Into Judy's room

With a father on amphetamines
Her mother hides the pearls
Reach out into the darkness
And find my little girl

'Cause she's angry like a salesman
That couldn't make a sale
Threw her wedding ring in the sewer
And damned them all to hell
Please lead her to the mountain
That you fashioned out of sand
While the roaches climb the walls
From the hotel where he calls

Most people never find a love
Most people never find a love
Sometimes you just can be a man
Sometimes you just can be a man
When your living in the darkness
Of the shadowlands
The shadowlands
The shadowlands
