It's a long way down
But I feel alright
It's a long way down
But I feel alright

And the cops get in
And the crowd gets tight
Take your tomorrow, pain and your sorrow
Teach it how to fly

It's starting to hurt
Starting to hurt
Starting to hurt
Starting to hurt

It's a long way down
But I feel alright
It's a long way down
But I feel alright

And I hope you're here
When I hit the ground
'Cause I'm high on forever and always together
And I'm coming down

And it's starting to hurt
Starting to hurt
Starting to hurt
Starting to hurt

It's starting to hurt
Starting to hurt
Starting to hurt
Starting to hurt
