If you take me back
Back to your place
I'll try not to bother you
I promise

Cause it's colder here
And I wish it was hot
The sink's broke
It's leaking from the faucet

And I'm fractured
From a fall
And I wanna go home
Now it takes two
And it used to take one
It takes two
And it used to take only one

Well my money's no good
When I'm up to no good
No good ever comes from it all
I got a really good heart
I just can't catch a break
If I could I would treat you like you want me to
I promise

But I'm fractured
From the fall
Oh and I wanna go home
I'm fractured
From the fall
And I wanna go home

It takes two
And it used to take one
It takes two
And it used to take one
It takes two
And it used to take one
It takes two and it used to take only one
