"Ultraviolet Light"

Visit "[Ultraviolet Light](#)" on MotoLyrics.com

This is the silence so nobody understand
Iced ocean leaves our ships just sliding in
Could forming, lighting shooting from it's hands
Sky's on fire, make a wish and use it quick my friend

Come on, come on, come on
Let's go it's getting darker
Come on, come on, come on, come on let's go...
Come on, come on, come on, come on
Before my wish expires
Something bad is on the horizon
Shining ultraviolet light

I see you hovering oblivious to air
The laws of nature don't apply, don't apply to her
No wonder that the world came to an end
There was another on the other side
Inside her head

Come on, come on, come on
Let's go it's getting darker
Come on, come on, come on, come on let's go...
Come on, come on, come on, come on
Before my wish expires
Something bad is on the horizon
Shining ultraviolet light

Shining ultraviolet light

Slow violence only radiates the sand
Delete your messages and...
Come on, come on, come on
Ultraviolet light's know the best way in
Don't wake the monsters in my head
Tip toe they're sleeping in

Come on, come on, come on
Let's go it's getting darker
Come on, come on, come on, come on let's go...
Come on, come on, come on, come on
Before my wish expires
Something bad is on the horizon

Shining ultraviolet light

This was a wish, this was a wish I made...

This was a wish, this was a wish I made...

This was a wish, this was a wish I made...

This was a wish, this was a wish I made...

This was a wish....

Now here comes the light...

Now here comes the light...

Here comes the light...
