Tell me what sin replaces love  
I wanna know right now  
Tell me what sin replaces love  
I wanna know right now

Imagine yourself on a mountain  
Mountain discovered with flowers  
Flowers discolored with horses  
Horses distracted by stones  
Stone distrusted with me

Then you might know what I mean  
'Cause I want to kick love right in its gut  
Beat it and leave for dead  
Wash my hands in the river  
Lie down and die in your bed

Tell me what sin replaces love  
I wanna know right now  
Tell me what sin replaces love  
I wanna know right now

Imagine yourself on a mountain  
Mountain discovered with flowers  
Flowers discolored with horses  
Horses distracted by stones  
Stone distrusted with me

Then you might know what I mean  
'Cause I want to kick love right in its gut  
Beat it and leave for dead  
Wash my hands in the river  
Lie down and die in your bed

The voice on the receiver  
Baby cry howlin' in the wind  
I don't wanna beg for your mercy  
I wanna know right know, what sin

Tell me what sin replaces love
