

**Manos Hatzidakis****"LOVE HER"**

Visit "[LOVE HER](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Love her,  
love her from the spring time  
love her for the days that you live  
Kiss her,  
kiss her when she's laughing  
kiss her for the nights that you love  
And you will know  
how very special it is to love her  
and she can feel  
the loving grow with every day you live  
know her,  
know the way she's feeling  
know that if you love her she's yours  
Hold her,  
hold her when she's crying  
hold her, till she's smiling  
never let it rain on your love  
And you will know  
how very special it is to love her  
and she can feel  
the loving grow with every kiss you give  
love her,  
love her for the spring time  
love her for the days that you live...
