I don't know what I'm going through
 Close my eyes still see you in sight
 Everything reminds me of you
 I could never let you go

I can't hide my feelings at all
 I give you love sometimes it's so hard
 Without you I know I'll fall
 I could never let you go

I don't know what I'm going through
 Close my eyes still see you in sight
 Everything reminds me of you
 I could never let you go
 I can't hide my feelings at all
 I give you love sometimes it's so hard
 Without you I know I'll fall
 I could never let you go
 I don't know what I'm going through
 Close my eyes still see you in sight
 Everything reminds me of you
 I could never let you go
 I can't hide my feelings at all
 I give you love sometimes it's so hard
 Without you I know I'll fall
 I could never let you go

What we share keeps me alive
 For you there's nothing I would deny
 All I know is I want you so
 I could never let you go

Every day and every night
 I think of you I swallow my pride
 I can't stand to see us fight
 I could never let you go
