[CHORUS]

I'll keep this brief it's nice to meet you  
Though I can't get past your ego  
I never hold a grudge cause love is the way  
Hello hi hey...anyway

When we do talk then I get sucked into  
Introductions to your ego  
You're rubbing me the wrong way  
Hello hi hey...anyway

[VERSE 1: Vursatyl]

Hey yo peace Vursatyl

Hey what's up dude

Yo my name is Brian but my MC name is Catapult (oh word?)  
Word my crew is called the Cannibals (ah cool)  
Yeah we're 30 deep and each member's a mutant  
culmination of six animals  
See each MC is simultaneously (okay) six creatures,  
that's six styles with six features  
Man we're the wild kingdom of hip hop...

Okay! Hey! It's nice to meet you but I'm just about to go on stage...

Right, well, speaking of stages we're the latest phase in  
hip hop  
And I mean face it..hip hop sucks without us  
And we're the best that bust and best at touching the  
mic  
I mean I like how y'all do (thank you)  
But we on some new next level complexity,  
tarzan telepathy, organic especially  
Me see I'm kinda like the leader..

Damn, I wasn't knowin!

Well, you sleepin on a heater..

Nah, I ain't never been the type to sleep...

Me either!

And that reminds me, we just recorded 90 new treats  
(uh huh)

Our 15 CD box set is finally complete (whoa..)

And did I fail to mention also I do beats on my  
Playstation 2

And I've comprised the hi-fidelity medley supreme  
stream

a heater beat you won't believe I'm even makin' mu...

Hold up cat, beats you makin for me?

No doubt, wait til you see!

Now why you doing that man?

C'mon Vurs, man you my favorite MC, next to me  
Cause these MCs are losers! (crumbs!)  
They just some wannabe bunch of me broken boosers  
(bums!)  
Word that's true and even my crew  
The truth is without me those dudes are borderline  
useless

Which brings me to my solo LP, my new website, my  
summer tour (wow)  
My cameos and collaborations with some obscure  
artists.. (shh..)  
It's hard to harness this much talent (yeah I'll bet)  
C'mon Vurs man you should know you're a vet  
And by the way when's the next time y'all playin?

Well besides tonight I think it's uh...

Uh huh right like I was sayin  
I'm nice and if you got some advice on points I'm  
missin my ears are open

Alright listen..

[CHORUS]

[VERSE 2: Vursatyl]

None of this is concocted

It's not pretend

Honest depictions of what I comprehend as a parent  
arrogant

And I've got a friend that sometimes get's into

(phone rings)...hold up this might be him

Hello?

Hi is Erb there?

This him

Hey what's up with you bro?

Loungin man  
Long time no hear from

Yeah I know  
Man I just flew in last night  
I caught y'all show  
I could of had that slot but they was fakin on the dough

Word?

Yeah they fronted

Well we just wanna get heard

Well yeah y'all should settle  
I keep forgetting y'all ain't on my level  
And so many are not quite  
The MC that I am I guess it's lonely at the top right?  
(well, yeah I guess)

Man it's hard being the best  
These MCs get pissed cause next to me they almost  
don't exist  
No diss but who can really say that they've gone where  
I've gone  
Or play where I've played  
Or that they've done what I've done  
Stay where I've stayed  
Sold what I've sold  
And done close

Yeah the nerve of some folks

Yeah and even y'all can't compare  
Y'all startin to swell  
But a cameo from me would really boast your record  
sales

Mm...well we kinda tryin to build with these cats from  
round the way

Man don't tell me that you feel them paperweight so-called  
rhymer I can make or break  
Hold me, eternal gratitude, show me respect  
And ask any record store  
People might buy your album but it's really me that they checkin for  
I've seen it once or a hundred times

[phone rings...]

Hold up folks I got somebody on the other line

[CHORUS REPRISE]

Though we're good friends it never ends  
Your self destructive massive ego  
I never hold a grudge cause love is the way  
Hello hi hey...anyway

You've gone too far  
It's just the way you are  
Hope that doesn't scar your ego  
You're rubbing me the wrong way  
Hello hi hey..anyway

[VERSE 3: Vursatyl]

Vur-sa-tyl

I must be tired I'm hearing voices

It's me Vurs the one who interferes in your choices

Wait, who are you?

Now see there that's the treat  
I've been known as arrogant  
To sometimes conceit  
Self-absorbed, self-centered  
I'm cocky, vein  
Stuck up, proud, pompous, other vulgar names

I'm closely associated to fame and success (alright)  
But I'm a part of everybody's thoughts more or less  
I'm just confidence misconstrued as something evil

Alright get to the point man...who are you?

Your ego

Nah I play the humble (true)  
I watch my words close

My rep proceeds me  
You never heard Erb boast

Hold it  
Need I remind you of the clever  
Kid rhyming backstage in your ear forever?

Yeah, so?

And what about the call from your friend?  
Who was kinda jaded, kinda dissed you at the end?

Now what you getting at?

That was us

Us who?

Me and you  
Man we were that kid Vurs

Nah man!

It's true!

I never sweat other rhymers!  
I never diss my troopers!

Well that kid was our past  
And that friend could be our future

Nah you got me twisted  
Ego trips don't concern me!

Chill Vurs those we're just stages on your journey  
I mean you are dope

Stop it man

[Vurs is hearing voices...]  
I mean you're the best rapper  
I mean really  
Just think about it man  
No one can touch you  
I mean you're better than all the other MCs out there

Ahhhhhhh!!!

[CHORUS REPRISE 2]  
How can this be?  
I finally see

That it was me who had the ego  
Please don't hold a grudge cause love is the way  
Hello hi hey...anyway

Swallow my pride  
Now that I'm wise  
Sincerely I apologize  
For rubbing you the wrong way  
Hello hi hey...anyway

[OUTRO: DJ Rev Shines]

[scratches]  
Hello hello hello hello hello  
Hey hey hey hey hey  
Hello hello hello hello hello  
H-h-hey hey hey hey hey...  
...  
[FADE OUT]
