Let's get on it, like you want it,
Like you need me, come please me!
If you aren't really ready, stop texting
Star racing, I can't take it!
No more! I need you know at my door,
So we could get this party staring right!
Oh, already got the candle light,

Take off your clothes now,
I've been waiting on you for way too long!
See, this ain't the time to be vocal
Let's do the talking...
I want you to know how I'm feeling,
I'mma put it on you all night, night, night!

Like... girl, that I'll be with, we'll be holding...
We've got no secrets!
I'mma give you...
We gonna make this the best...
All weekend!
All weekend!
Yeah!
Let's get on it!
Really on it!
I guess I... it's our last chance, no replay!
The outfit, just get naked...
