Six six six am on the weekend, she's creepin out of the  
East end  
And you said it was nothing, you just slipped and  
missed  
Your ride from your girlfriends  
And hey jenny, your hair looks crazy messy  
Did you all nod off with your shoes on, did you fuck and  
Fall asleep on the futon?  
I can't believe you were crashed out watching some  
movies  
Wake up little floozie, jenny looks a little jonesy  
She said I don't quite know what happened, woke up  
with  
My dress wide open

And I like the lights and I like em pretty bright  
And he pulled out a pipe in the taxi  
And I like the lights and I like em pretty bright  
And he took off my tights in the taxi
