(Alright alright, yes yes y'all  
Livin large with lifter puller  
Smokin weed and making money  
In the 1-9-9-sizzay [6])

Driving down the street in my jeep givin beeps to all  
The people on the sidewalk  
Listen to the loose talk, eye to the sky, ear to the  
Mci  
Everybody's talkin 'bout a woman that's a friend of  
Mine, picked her up at the airport  
She said I just got back and I'm already bored

And I was so impressed in your sequin dress  
Goin to the stop n shop, stoppin by the cvs  
Grab onto my elbow, walkin down the aisle with the  
Shiny shiny hair  
And your colgate smile, we get up to the register

I said mister, can I please just have this paper  
I think it's got my picture

Enteraining the soldiers, makin eyes at the sailors  
And we walked between these velvet ropes, went  
straight  
For the bathroom soap  
Tried to make ourselves clean  
Try to make ourselves sparkle, I mean india seems just  
Like a dream  
I left with five bucks and I lived for five months like  
A queen  
And these nightclub scenes aren't ever what they seem  
Liquid soap won't get you completely clean

Brought back just a little bit  
Baby let's get rid of it
