If ever you needed to talk
You
Could talk to me
Oh could you
Talk to me

If ever you feel
Like you're lost
You can count on
Me
I'll find your way

When the
Lights go out, in the
Universe
I'll be next to you,
I'll be next to you
And I'll
Surrender myself... to
You

I'll love you forever, I'll
Like you for always
For always,
Together we'll be
I'll love you
Forever, I'll like you for
Always
For always, together we'll
Be

If ever you're too sick to
Walk
I'd carry you, I'd take care
Of you

If ever you feel scared
And alone, I'd hold you
I'd just
Hold you

When the lights go

Out, in the universe
I'll be next
To you, I'll be next to you
And
I'll surrender myself... to
You

I'll love you forever, I'll
Like you for always
For always,
Together we'll be
I'll love you
Forever, I'll like you for
Always
For always, together we'll
Be

And when you cold, just like
You do
I'll give you my coat,
Cause I'm here for you
And as we
Grow old, I promise to
Love you
With every breath that is
True

When the lights go out, in
The universe
I'll be next to you,
I'll be next to you
And I'll
Surrender myself... to
You

I'll love you forever, I'll
Like you for always
For always,
Together we'll be
I'll love you
Forever, I'll like you for
Always
For always, together we'll
Be
