Sugar you right infront of me, lights out huggin me,
I'ma show you how to be.
I'm a late night creep and now aint no sleep, and now
your body's callin me.
We can lay down in a feather playground pad, with a
white linnen canope.
And if you like that talk, baby don't stop now, 'cause the
rain's not stoppin me.

Let me show you how I break this down, break this
down, I'ma make you love me babe.
Let me show you how I break this down, break this
down, you can let me drive you crazy.
Let me show you how I break this down, break this
down, I'ma make you say my name.
Let me show you how I break this down, break this
down, let me break it down for you baby.

Kiss by candle light, tell me what your feelin like, girl
you do it right.
Get your system pumpin', that heartbeat thumpin', we
working through the night.
And we gunna get real sweaty, it's cool I'm ready, we
rockin' Phili now.
Sugar don't be surprised when you recognise, it's good
when I put it down.

Let me show you how I break this down, break this
down, I'ma make you love me babe.
Let me show you how I break this down,
when I break this down, I'ma drive you crazy yeah,
yeah.
Let me show you how I break this down,
when I break it down you'll be sayin' my name.
Let me show you how I break this down,
how I break this down, yeahh.

[Break This Down Lyrics On]

Let me show you how I break this down, down, down,
down. Let me show you how I break this down, down,
down, down, down. (x2)

Let me show you how I break this down, how I break this
down, break this down.

Let me show you how I break this down, let me give you
what you need, give you what you aint had lately.

Let me show you how I break this down, I garantee
there's noone better.

Let me show you how I break this down, we don't need
nobody but you and me.

Listen I aint even gotta speak, I'll make the beat talk to
ya.

You know you want that.

Listen I aint even gotta speak, I'll make the beat talk to
ya.

Let me show you how I break this down, 'cause I know
your gunna like it.

Let me show you how I break this down, yeahhhh.

Let me show you how I break this down, break it down
yeah.

Let me show you how I break this down, down, this
down, down.
