Lookin' out at my city I just can't help but wonder
How I made it to the top , kept from going under
I'm eating everyday and still I got that hunger
Play these keys, wear these shades, words of Stevie
Wonder
I started from the bottom not a pot to piss in
Now i'm applauded, I outsmarted the competition
And being rich was about product, and not the mission
Know my ticket price is high ,it cost alot to listen
20 ft. I'm at the Metro Theatre in Sydney
I ain't flying out alone I got my hommies with me
You see the way we move under spark of this light
But it's worse when you aussie girls to bark or to bite
I'm a find out
Melbourne at Alhambra
Finni taste for myself ,I'm going down under
And you can't help the way you scream, I'm bringing
you thunder
Bringin' the thunder

And we will make it rain
(Uh)
All night
Make it rain in Australia
(Yeah)
All night
We will make it rain
All night
Make it rain in Austrlia
All night

I'm addicted to winning
She's addicted to winners
Heard the sees is opposite
And in the summer he's swimming
It's warm when it's cold
Cold when it's hot
You can feel it when it's real
And you know when it's not
I'm the real deal baby, keep the cameras on
Out on Bondai beach i see some amazons

Lookin' good, you a good look
But what's under the surface hope you're a good cook
I speak it to your heart, can you feed my mind?
Top back see the stars, when the sees recline
On the way to the after party in Markee
Pardon me
I feel to make it rain

All night
Make it rain in Australia
(Yeah)
All night
A feel to make it rain
All night
Make it rain in Australia
(Yeah)
All night
