[chorus]

you gone love it when we dance tonight
so cmon sugar put your pretty hands on mine
cuz anyway you like it, i can blow your mind
and you gone love it when we dance tonight [r-les]

[uh] lets take it to the top right now

[uh] turn your body upside down

[uh] just watch it when the lights go down

cuz you'll be reaching out for meee [take it down]

i checked into the right hotel

i know your body type so well

and what we do tonight, dont tell

just keep it between you and me, yeah

[bridge]

we can kiss and whisper

make a wish as this goes down

im a real good listener

so tell me how, you want it now [you gone love it girl]

[chorus] [2x]

you gone love it when we dance tonight
so cmon sugar put your pretty hands on mine
cuz anyway you like it, i can blow your mind
and you gone love it when we dance tonight

[uh] its over when you breathe like that

[uh] didnt know that you could tease like that

[you] your feet between yah knees like that

whenever your dancing with meee

[uh huh] i wanna make the rain come down

[uh] so loud, everybody can hear the sound

[uh] your screaming like a bad girl now

ill show you how, i bring it ouut

[bridge]

we can kiss and whisper

make a wish as this goes down

im a real good listener

so tell me how, you want it now

[chorus] [2x]

you gone love it when we dance tonight
so cmon sugar put your pretty hands on mine
cuz anyway you like it, i can blow your mind
and you gone love it when we dance tonight

left right up and down
rock it to the beat now

we be in the dark
making that sweet sound

please dont hesitate
baby come closer [baby come closer]

cuz you like the way i move it
and you... ??

[chorus] [2x]

you gone love it when we dance tonight
so cmon sugar put your pretty hands on mine
cuz anyway you like it, i can blow your mind
and you gone love it when we dance tonight
