You've introduced me to life that I've never known,  
when I'm by your side that's when I feel at home, and  
my only intent is to make you smile, I promise... So  
believe what I say when I say I'm real, cause there ain't  
no mistake in the way I feel, baby open your heart and  
accept this love I give you, over the others over my  
pride over the faults that I have in my life, I choose you,  
I choose you, I choose you, I choose you, over the  
others over my pride, cause you're the best thing in my  
life, I choose you I choose you I choose you... Said I  
knew it was right, so I took the chance, disregarded the  
challenge of the circumstance. Now you're too big a  
part of me to let you go, I promise. So despite the way  
that I make mistakes, and despite the direction this  
love may take, you can always be sure of me, just have  
faith, I got you. This much is true... over the others over  
my pride over the faults that I have in my life, I choose  
you I choose you I choose you I choose you over the  
others over my pride cause you're the best thing in my  
life, I choose you I choose you I choose you I choose  
you.
