Now you seem like the type thats extroverted
extra flirty,
so hot, you burning
don't really need to rush,
no hurry, got the coverage
not to worry
Got all these types that tryin to grab ya
love to smash ya, tryin have ya
Draped on their arm like jewelry
You done seen it , heard it, all it before

(bridge)
One single night can change(change) everything
(thing)
Watch you believe, I'm tellin you
One single touch can make(make) you understand
(stand)
How it should be, I'm wondering
Cause I see the way you stare(stare) when I'm around
(round)
Girl I can tell, and baby if
You're willing to go there, I'm ready to take you
If you're ready to go

(chorus)
Girl you need somebody
I'm somebody
Don' t be shy with me
I'm here to give you just what you need
(2x)

You look like the type that's extra spicy

girl its likely ,that you might be
what I been missing in my world
if your that girl then
lets not waste time
cause if you're that one I'm missing
I'm your pricne then
and you're my princess
I know that you been waiting
I can be your one in a million

(bridge)
(chorus)

(breakdown)
If you need some one to satisfy you
you'll find me right here beside you
trust me to intensify the way
that you feel
if gets to to be too much to handle
tell me so and I'll be gentle
I'm your fire and you're my candle,babe
but its getting late
so please don't wait

(chorus 4x)
