Thats right.
Rock with me now, uh.
Give it to me like, Awh
Hey, hey, hey, c'mon thats right

I hear them talkin' cuz they seen us around
Got them guessin' bout what's really going down yeah
And if they found out that we do what we do huh
Well I doubt if they believe it was true yeah

So Im thinkin' that we should just be good friends
If we continue this way we'll only just hurt each other
So Im thinkin' that we should just be good friends
Go through the motions so we don't blow our cover
yeah

You can call my phone, You can swing over my way
All yo nights alone, You can come over my place
If he treats you wrong, Let me give it to you my way
Just remember that your not, your not my girl!

Indiscretion makes this love affair sweet
Without the secrets it would feel so incomplete yeah
So we should keep our quiet nights between us
So wen we chain our urgency wen we touch

So Im thinkin' that we should just be good friends
If we continue this way we'll only just hurt each other
So Im thinkin that we should just be good friends
Go through the motions so we dont blow our cover
yeah

You can call my phone, You can swing over my way
All yo nights alone, You can come over my place
If he treats you wrong, Let me give it to you my way
Just remember that your not, your not my girl!

Now you can rap to the rhythm of the beat now dont
stop
And as long as you do yourself do my job
Cuz I really like this the thing that we got, so we just
Keep a secret baby, your not my girl!

So Im hopein' that we should just be good friends
If we continue this way we'll only just hurt each other
So Im hopein' that we should just be good friends
Lets just keep it a secret baby, Your not my girl!

You can call my phone, You can swing over my way
All yo nights alone, You can come over my place
If he treats you wrong, Let me give it to you my way
Just remember that your not, your not my girl!

You can call my phone, You can swing over my way
All yo nights alone, You can come over my place
If he treats you wrong, Let me give it to you my way
Just remember that your not, your not my girl!
{Fade Out}
