I woke up early this mornin'

I was feelin' awful blue

I woke up early this mornin'

I was feelin' awful blue

Well I felt so bad baby

Till I did not know what to do

I walked down to the station

And fell down on my knees

I walked down to the station

And I fell down on my knees

I had to catch me a freight train baby

Just to give my poor heart ease

Well blow your harmonica son...

What time do your next train leave goin' to East?

If I don't leave town

These women won't let me see no peace
