I was standin' at the Greyhound bus station  
When my little woman stepped on board  
I was standin' at the Greyhound bus station  
When my little woman stepped on board  
Well I was just standin' there thinkin'  
Come back baby please don't go

Well when that Greyhound bus was leavin'  
With my little woman all inside  
When that Greyhound bus was leavin'  
With my little woman all inside  
Lord Po' Lightnin' couldn't do nothin'  
People but hang my head and cry

Well all right son... (harmonica solo by Lazy Lester)

I don't know why she wanna go and leave me  
Lord and have me worried every day  
Lord I don't know why she wanna leave me  
People and have me worried every day  
But it don't matter where you go darlin'  
Lord you'll surely come back home some day
