It was rainin' and stormin'
I couldn't hardly see the road
It was rainin' and stormin'
I couldn't hardly see the road
You know I wanna see my little angel
I kept on drivin' my V-8 Ford

You know I wanna see my little angel
She got dimples all in her jaws
That's why I love my little angel
She got dimples all in her jaws
You know if I don't see that woman this night
(what's gonna happen Lightnin'?)
I'll be forced to break these county laws

Well all right son...

I'm in love with my little angel
I just love to see her smile
I'm so crazy about my little angel
I just love to see her smile
You know I want the world to know
That she is my little angel child
