Finally I've driven down the road
Should have to go left,
now I know where I'm going
Where I'll end up next,
I can tell you all what I would like to see,
and that's to have you smiling and sitting next to me

Well I've been without you for forever now and,
it's only been a day
When I see you it seems time just slips away
And now I'm thinking of where I could stay on track
And it would help me if you'd turn and come on back

(Chorus)

Come back, come back
Come back to where we know your name
Come back to me and it would be the same
Come back and show me, woah, how you feel inside
Come back and show them they have lost, nothing left
to hide

Driving down the road and I am lost,
don't know where to turn and now I'm thinking to
myself
what I would never learn
You could show me the way and teach me what I need
to know
and if you get too close, don't worry, 'cause I won't let
you go

Well I said I'm finally I'm driving down that road,
should have to go left, now I know where I'm going
Where I'll end up next
And I could tell you all what I would like to see,
and that's to have you smiling and sitting next to me

(Chorus)
