"Goodbye & Goodnight"

Don't be afraid, I would never hurt you

Don't be afraid, I'm tellin' on you now
I never said don't go
Don't be afraid babe, I'm not leaving
I can see your scared
It shows
I should've known

I've tried so hard to bring you down
It's all for fun
And now it's all my fault
Wrap this up and send it to my house

Don't be afraid, I'll keep my mouth shut
It hurts me to say goodnight
And goodbye

You said you'd never say goodbye
And I promised I would never make you cry
You lied
So did I

I've tried so hard to bring you down
It's all for fun
And now it's all my fault
Wrap this up and send it to my house

I've tried so hard to bring you down
It's all for fun
And now it's all my fault
Wrap this up and send it to my house
