"Please"

Just get it off my chest
I thought I'd say it to your face
It's always for the best
To help you cope with the aftermath
Leaving class early
once again

Chorus:
I'm fine, I'm over you
Just thought I'd say it
But are you listening
I'm fine, I'm over you (x2)

'Member when be both agreed
This was only temporary
and that we'd stay friends
Whatever happened to change is good?
Whatever happened to change at all?
In this place

[Chorus]
[Solo]
[Chorus]

Just get it off my chest
I thought I'd say it to your face
It's always for the best
That way...

To help you cope
With the aftermath
Leaving class early
once again (x2)
