I feel the weight of silence crashing down
It brings me to my knees
Remember back to when we had it all
When you stood next to me

But with every kiss it tastes like goodbye
And I don't wanna feel like this will be the last time

I stopped breathing
My heart's not beating
Begging you on my knees
And I'll say never
Just stay forever
Will you come back to me
Just come back to me

I stole the moment
But the moment stole the breath right out of me
(Oh oh oh oh)
Regretting every second left in fear
Your ghost is haunting me

But with every kiss it tastes like goodbye
And I don't wanna break here tonight

I stopped breathing
My heart's not beating
Begging you on my knees
And I'll say never
Just stay forever
Will you come back to me
Just come back to me

I can't hold myself under time
Can't heal everything
Try and somehow discover
Find yourself again

I stopped breathing
My heart's not beating
Begging you on my knees

And I'll say never
Just stay forever
Will you come back to me
Just come back to me

I stopped breathing
My heart's not beating
Begging you on my knees
And I'll say never
Just stay forever
Will you come back to me
Just come back to me
