I feel the weight of silence crashing down  
It brings me to my knees  
Remember back to when we had it all  
When you stood next to me

But with every kiss it tastes like goodbye  
And I don't wanna feel like this will be the last time

I stopped breathing  
My heart's not beating  
Begging you on my knees  
And I'll say never  
Just stay forever  
Will you come back to me  
Just come back to me

I stole the moment  
But the moment stole the breath right out of me  
(Oh oh oh oh)  
Regretting every second left in fear  
Your ghost is haunting me

But with every kiss it tastes like goodbye  
And I don't wanna break here tonight

I stopped breathing  
My heart's not beating  
Begging you on my knees  
And I'll say never  
Just stay forever  
Will you come back to me  
Just come back to me

I can't hold myself under time  
Can't heal everything  
Try and somehow discover  
Find yourself again

I stopped breathing  
My heart's not beating  
Begging you on my knees  
And I'll say never

Just stay forever  
Will you come back to me  
Just come back to me

I stopped breathing  
My heart's not beating  
Begging you on my knees  
And I'll say never  
Just stay forever  
Will you come back to me  
Just come back to me
