They shake, what's your fear?
Bet your life you like to fear

And I make sure they've gone
They take what you've got

Too bad they'll never let you go
Too bad you'll never get to know

It's too hard to believe in what you ever read

Too bad you'll never get to know
They'll eliminate you

They got fear in your head

Never get your money here

Fear in your head

Take your money here
Stand in line

Do a line

Stand in line

Too bad you'll never get to know

It's too hard to be believe in what you ever read
Too bad they'll never let you go

Too bad they'll never let you know

Eliminate you

They take their money from all your little hags
They bleed into your heads with your beds

They spread the legs of all your little lambs

They ate and human sacrifice demands

Can I feel? What you feel?

Can I feel? What you feel?

Can I feel? What you feel?

Can I feel what you feel, what you steal?

Where I can't ever want to stand

Eliminate! Eliminate! Eliminate! Eliminate!

We'll eliminate!

Too bad you'll never get to know

Too bad they'll never let you go

It's too hard to believe in what you ever read

Too bad they'll never get to know

They'll eliminate you

Eliminate you
