"Time With You"

Visit "[Time With You](#)" on MotoLyrics.com

Everyday I fall
Just a little bit when I close my eyes
I admit I think of it
You and me alone

Is anyone else near here?
'Cause I don't think I know or care
I feel like I'm invisible
And only you can see

It's moving much too slow
The same old things come and go
And take my time
And it's meant for you and I

And it's all I can do
I wish my days away, it's true
So I can waste my time with you
So I can waste my time with you

Every day, every night,
I can't get you off my mind
So I'll waste a whole day through
'Cause I'd rather waste my time with you

Always away from you
It seems I'm just passing through
A road that fills my time
Until I see your face again

My mind is a one way track
It's gone too far, no turning back
I'm hopelessly hopeless like that
And I know I won't change

It's moving much too slow

The same old things come and go
And take my time
And it's meant for you and I

And it's all I can do
I wish my days away, it's true
So I can waste my time with you
So I can waste my time with you

Every day, every night
I can't get you off my mind
So I'll waste a whole day through
'Cause I'd rather waste my time with you

It's moving much too slow
The same old things come and go
And take my time
When it's meant for you and I

And it's all I can do
I wish my days away, it's true
So I can waste my time with you
So I can waste my time with you

Every day, every night
I can't get you off my mind
So I'll waste a whole day through
'Cause I'd rather waste my time with...

Everyday I fall
Just a little bit when I close my eyes
I admit, I think of it
You and me alone
