Now I know that I probably
Shouldn't have left,
And it's something now
That I really regret
And by now you probably found somebody else
I'm just expressing to let you know how I care

Are you and that somebody, that somebody
Have you found true love, with that somebody
Are you and that somebody,
Are you and that somebody, that somebody
Have you found true love,
If you haven't found somebody then

(CHORUS)

Come back to me
Come, come back to me
Come, come back to me
I wanna do u wanna, come,
Come back to me
Come, come back to me
Come, come back to me

Forgive me when I said
I didn't care
And I know that I always wasn't there
But by now you probably found somebody else
I'm just expressing to let you know that I care

Are you and that somebody, that somebody
Have you found true love, with that somebody
Are you and that somebody,
Are you and that somebody
Have you found true love
If you haven't found somebody then

(CHORUS)
