Miss you so much, don't know why

You left me all alone today when you said goodbye I  
got your 7 pm message on my celly  
And started to cry never thought that you would leave  
& now your gone from me & baby I just can't believe

(Chorus)

I miss you so much baby & I don't know why cause  
when we are together all we do is fight  
I need you right here with me... (repeat)

I need you I want you ijust wanna feel you near me so  
wont you please my baby com back to me...

I miss you so much baby & I don't know why cause  
when we are together all we do is fight  
I need you right here right now right next to me I miss  
you so much baby and  
I don't know why cause when we are together all we do  
is fight I need you right here with me

Oh baby I promise you that we can work it out like that  
I'll light the candles & make dinner for two anything  
you want boo  
I can do for you... so don't you know this is my song/my  
babys
