Eyes that lurk from the shadows
For they see what no man can see
Another angel will die soon
For the devil hunts tonight... and he's after you...

Addicted to Satan, cruelty's oblivion
The antichrist on earth and you're right in his way...uh?
Fuck!
I have come to you sweetie to bring hell on earth
I know what you think, I watch your every move
Hear my breath behind you, your fear is my dope.. slut
The demon's fangs into your ass
You can't do anything but spread your legs..you...bitch

The black rites can begin, all you seven are here
Seven cunts, seven mouths, blood and cum offerings
Dead bodies, maid beauties, all are sacrificed for thee
Lord Satan, infamous, give me the joy of your demon
whores

Death Hate Murder Blood Cum Evil
Death Hate Satan Kill God And His Christ

We the children of the goat
Pay devotion to our lord
When the day of the final war comes
My crimes will light the way down to the darkest hell

Nail Him! Nail Him! Die!
Nail him to the cross!!!

Bloodstains on my randy cock
Satan's inside my sucked in shell
Another angel is dead tonight
And it's ass has been filled up with hatred
