Orgiastic murder
Blood on the ground
A body for an altar
She draws the sign of her inner hell...
In this dark dungeon
A dark sexual mass
The corset tormentor
With dildos and handcuffs
Brings her soul to xtasy

Bondaged he cries
Sodomized he screams
She spits on your face
Like the wimp on his cross, soon you will die!

The dark mistress always sucks down the dead
The dark mistress only sucks down the dead
Your death makes her cum

A fistfucking prayer, an angels requiem
The whore queen commands
He obeys randy and thanks his executioner

She lashes the air with the devil's tail
Her eyes filled with hate, "obey to get her down"
Hurt me, love me, she's a pain paid hooker
You're my pain, my goddess... worship her cunt you
slave!

The empress has left
Her slave sleeps forever
The praying mantis is satisfied till another night
Next night, she'll come
Just for you... your death'll make her cum!
