Baby you keep in and out my door  
Hold on we've been through this before  
Know  
that when you leave the last time  
You will never ever ever learn  
What you  
truly had  
When you decided not to return to me

Baby you keep turning me  
around  
Hold on, In me love you said you found  
Your eyes they tell me that you  
did  
But I may not stay around while you  
Leave, beg me, stay, please stop  
making a fool of me

Oh...

When you finally decide to  
Keep your word  
And  
your standing just outside  
forgive me love if don't come to the door  
Just  
know, I've cried, and cried, you left, in pride,  
You could not decide, and I  
can't shed a tear anymore.

Oh before you close the door this time

Baby you keep in and out my door  
Hold on we've been through this before  
Know  
that when you leave the last time  
You will never ever ever learn  
What you  
truly had  
When you decided not to return to me

Baby you keep turning me

around  
Hold on, In me love you said you found  
Your eyes they tell me that you  
did  
But I may not stay around while you  
Leave, beg me, stay, please stop  
making a fool of me  
Oh....

When you finally decide to  
Keep your word  
And  
your standing just outside  
forgive me love if don't come to the door  
Just  
know, I've cried, and cried, you left, in pride,  
You could not decide, and I  
can't shed a tear anymore.

Oh before you close the door this time  
Turn  
around see what's before you eyes  
Oh baby please come clean  
It hurts me so  
when your in between  
Oh what am I to do when your feeling  
In between  
Oh  
baby don't leave me here  
In between
