baby when I'm wrapped up in your arms  
it never rains  
and I'm praying for more more and more  
each and everyday  
aww baby

we're flying high  
and no one can deny  
they can tell by the look in your eye

that we got love  
you got me  
and if i got you baby  
we got more than money  
you are everything a man's been dreaming of  
oh we got love  
baby we got love

and you know i love to see you smile  
and what you done for me  
what you done for me makes it all worth while

cause you  
you are my desire  
and with the slightest touch  
with the slightest touch my soul's on fire

cause we got love  
baby you got me  
and if i got you  
we got more than money

you are everything a mans been dreaming of  
oh we got love  
baby we got love

storms are gonna rise  
winds are gonna blow  
but it ain't no need to worry  
as long as we know  
as long as we know

we got love  
baby you've got me  
and if I've got you  
we got more than money

you are everything a man's been dreaming of  
oh we got love  
baby we got love

cause i believe I've been around  
but we won't let nothing  
nothing shake the love we've found

we got love  
baby we got love  
oh yeah love  
baby we got love

i know we got a got a got love  
say we need a need a little bit of love  
baby we got a we got love  
oh love  
oh love
