Rubber bands are holding me together
I need the perfect smile for my mother
Look we've done away with our disease
When I'm dead you'll know me by my teeth

I am
You're perfect now just smile, woah, oh
La La Hey
You're perfect now just smile, oh

Got my braces off of me this morning
I should've listened to the doctor's warnings
Change of face you call me names and tease
When you're dead I'll call you what I please

I am
You're perfect now just smile, woah, oh
La La Hey
You're perfect now just smile

Rubber bands are holding me together
Rubber bands are holding me together
I need the perfect smile for my mother
Rubber bands are holding me together

Hey,
You're perfect now just smile, woah, oh
La La Hey,
You're perfect now just smile, oh
Yeah,
You're perfect now just smile
You're perfect now just smile, woah, oh
You're perfect now just smile
You're perfect now just smile
