I forgot your name by now
So don't remind me
I'm much better off without
A love that's blinding
I'm pissing on your grave
So nothings going to save you now

I forgot your number now
It's been a long three days
And one hard lonely hour
I hope you wish upon a lucky star
The fuck you think you are

I will never believe you
Ever again you
Wish you could stay
I will never forgive you
All of your lies don't
Make this ok

I forgot your name by now
I hope you don't believe
All that you hear inside
Your lips are full of shit
You know your cold
So do it go and golden

I will never believe you
Ever again you
Wish you could stay
I will never forgive you
All of your lies don't
Make this ok

Rising forward
Don't look back now
We will be ok

I will never believe you
Ever again you
Wish you could stay
I will never forgive you

All of your lies don't
Make this ok

I will never forgive you
Never forgive you
Never forgive you
Never
