She says going my way  
A thousand miles from fame  
I'm just a little bit  
Down on my luck today  
I've seen the city lights  
From Wilshire to Del Ray  
I've taken in the different sins  
But I've not fallen from grace  
Or so I thought  
But I've been caught up in some moments  
Some foolish games different names  
And traded many nights of love  
Who said the best things in life come for free  
Oh welcome to my reality  
Oh

Here it is  
Just a day  
In the life of me  
Not trying to get your sorrow  
Just need a little prayer for tomorrow  
Here it is  
Just a day  
In the life of me  
I don't need your sorrow  
Just say a little prayer for tomorrow

Night falls  
Story of her life  
Three days in six to twenty-five  
Then chased some dreams  
Into the streams  
And done her best to survive  
She says to me I want to be  
Someone to look up to  
In this life I compromise  
Enough for me and you and you  
This world will tear you apart if you let it  
I've done my very best to forgive and forget it  
She said

Here it is  
Just a day  
In the life of me  
Not trying to get your sorrow  
Just need a little prayer for tomorrow  
Here it is  
Just a day  
In the life of me  
I don't need your sorrow  
Just say a little prayer for tomorrow

We try to make it through the day  
Avoid the things that cause us pain  
And everybody wants to act like everything is ok  
We try to make it through the day  
Avoid the things that cause us pain  
And everybody wants to act like everything is ok

Here it is  
Just a day  
In the life of me  
Not trying to get your sorrow  
Just need a little prayer for tomorrow  
Here it is  
Just a day  
In the life of me  
I don't need your sorrow  
Just say a little prayer for tomorrow

Here it is  
Just a day  
In the life of me  
Not trying to get your sorrow  
Just need a little prayer for tomorrow  
Here it is  
Just a day  
In the life of me  
And I don't need your sorrow  
Just say a little prayer for tomorrow

I think they get it
