A nation of fools, a nation of lies
For 1000 fools, for 100 lies
Believe nothing that I tell you
Believe nothing that I say

Fever, you got fevered
Fever, you got the fever

And going down on everything I wanted
I'm sucking off, yeah anything diseased
This that, this and that, this and that
Bombing every fear I need

Fever, you got the fever
Fever, you got the fever

Oh why can't you feel the bombs around you?
Coming home and falling on you
Try, try, get it, try
Try, try, try, try

Fevered
Got you fevered
Got you fevered
Got you fevered
Fevered
