I go to work
I pay the bills
I suck your cock
And I don't care no more
They call it work
I lick your ass
Out my way
It's gonna stop

'cause I'm just a lie
In my eyes
I just sit and lick and compromise
It's just a job drilled into dead
They just prop me up until the end

'cause the vaccine is
The plague in here

Slave!
Sleep!

I wanna see you raped and decapitate
The sheep will always sleep until retired
I wanna see you raped and decapitate
In your silent fate of hidden agenda

Cause I just lie
Into this bed
I stare at these four walls and I am dead
I'm mummified with "gun of fear"
And you know I don't know how to steer

'cause the scientist is a satanist

Slave!
Sleep!

I wanna see you raped and decapitate
The sheep will always bleed until retired
I wanna see you raped in your silent fate
With your silent rape of hidden agenda
You were born in the suit

And you have a plastic spoon in your fucking mother's
ass

In your suit
You can never be alone in here
In your suit
You can never get a load in here
In your suit
You can never get along in here
You can never...you can never
Stay in here
Pay all the fear
