### "Over And Done"

Visit "[Over And Done](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Well it's over and done  
Even though you're the one  
Close both my eyes  
Until love's just another disguise.

I told you that I never wanna see your face  
Well I didn't really mean it  
It seems like I've always been in second place  
Well I thought you might've seen it.  
Yes, this is hard for me  
To face the facts and realize you  
Only see the thoughts in me  
So just walk away when I say...

#### CHORUS

That we're over and done  
Even though you're the one  
I'll pretend that you're not  
Though I'll miss you a lot  
We're over and done  
Even though you're the one  
Close both my eyes  
Until love's just another disguise.

Looking at some pictures staring into your eyes  
I have to look away  
A smile that can only be true to a lie  
There's no truth in what you say.

Yes this is hard for me  
To take the bad in with the good  
But you only take the best of me  
Left me with nothing to keep.

#### CHORUS

So we're over and done  
Even though you're the one  
I'll pretend that you're not  
Though I'll miss you a lot  
We're over and done  
Even though you're the one

I'll close both my eyes  
Until love's just another disguise.

I remember the time  
When you said that you're mine  
Here it'll start until death do us part  
Seems things have changed  
Now our lives rearranged  
Take this last kiss  
The sweet taste I will miss  
When you're holding me tight  
Everything seemed alright  
There were no second thoughts  
Just as if we were taught  
To put trust in ourselves  
And believe in ourselves  
Trust ourselves!  
Believe ourselves!

#### CHORUS

Well it's over done  
Even though you're the one  
I'll pretend that you're not  
Though I'll miss you a lot  
It's over and done  
Even though you're the one  
Close both my eyes  
And see love's just another disguise  
Love's just another disguise.
