I tremble down, if your love  
Crumbles down, for my love  
The pressure's down, when your love  
Lifts me to the moon, like a dove

When your feelings get put to the ground  
You can do the Left Foot Step Down.  
Do yourself some right!

If you're being held back with the crowd  
You can do the Left Foot Step Down.  
Do yourself some right!

The word is love, when your life  
Needs to be, full of light  
And when the sun, meets the night  
Prepare yourself for the world and the fight

When your feelings get put to the ground  
You can do the Left Foot Step Down.  
Do yourself some right!

If you're being held back with the crowd  
You can do the Left Foot Step Down.  
Do yourself some right!

Now you found, out your sound  
Don't be too proud, to turn around  
Don't let it pass, it's here to last  
Raise it up like a flag, on the mast

When your feelings get put to the ground  
You can do the Left Foot Step Down.  
Do yourself some right!

If you're being held back with the crowd  
You can do the Left Foot Step Down.  
Do yourself some right!
