"Talk About Love"

Visit "[Talk About Love](#)" on MotoLyrics.com

You talk about jobs
You talk about company relations
You talk about wars
You talk about race discrimination
You talk about things
I don't mind at all to know
You talk about silly conversations
You talk about space
You talk about nuclear radiation
You talk about stocks
You talk about business speculation
You talk about things
I don't want to criticize
Why can't you see what I need to hear, so

Talk about love
Talk about love
Let's start a midnight conversation
[Talk about talk about]
Talk about love
Talk about love
Let's start a new communication
[Talk about talk about]

You talk about books
You talk about recent publications
You talk about stamps
You talk about charity donations
You talk about things
So uninteresting to me
You give me useless information

You talk about art
You talk about color combinations
You talk about clothes

You talk about fashion demonstrations
You talk about stuff
That I just don't give a damn
Why can't you see what I need to hear, so

Talk about love
Talk about love
Let's start a midnight conversation
[Talk about talk about]
Talk about love
Talk about love
Let's start a new communication
[Talk about talk about]

Talk about love
[Talk about love]
Talk about love
Let's start a midnight conversation
O-ooh
Talk about love
[Talk about love]
Talk about love
Let's start a new communication
[Let's go]

Talk about love
Talk about love
Let's start a midnight conversation
[Talk about talk about]
Talk about love
Talk about love
Let's start a new communication
