"Prove Yourself"

I just try to belong in a world
I think is wrong
Increasing depression growing fear
Generations too deaf to hear
I close my eyes and try to understand
But i don't like what i'm seeing
I just can't comprehend - prove you!
How could i have acted so foolish
To rush the head first
U hope things could be different
It's even getting worse
Looking down ashamed to understand
Reality ain't how it should be
Man's his own worst enemy

Try for yourself - to be!
Prove you
Prove yourself
Prove yourself wrong
Wrong!
