I promise this will only take two minutes of your time, and isn't that all your attention span can afford? But I've got so much to prove, and I'll watch the precious seconds bleed away and out of your memory, and isn't that the one reason we're doing this for? But I've got so much to lose on a wasted verse of ninety words you'll probably never hear but just one thing before you skip this song believe me when I say it's all for you, this is all for you- the lines, the takes, the hooks, the breaks, you said dig deep so we dug you said jump high so we jumped. The shouts, the screams, the hopes, the dreams are all for you, this is all for you! And is it bittersweet? Does it make you sing? Does it remind you of mixtapes and first dates and shredding in your room and summers that have been and gone? We'll make it innocent, world weary, eloquent or hard fucking edged, just listen now please reminisce and now we'll make it anything you want. We'll make it lovestruck or heartbroken just as long as you stick around, we'll make it soar or we'll bring it down. This is all for you. Fuck you, we're doomed.
