Worst day out -
Worst day out -
My worst day out -
Worst day out -
Worst day out -
My worst day out -
Worst day out -
Worst day out -
My worst day out...

My little lady Nadia, I love Her, oh, so much
She was so sweet and beautiful, and sensitive to touch
Held Her in my arms... underneath the moon
She would protect me from the headless Zombie in my room...
I never let Her go. She used to keep me sain
I thought we'd never, ever, be apart ever again
Walking down Rye Town, we're looking for a meal
Never thought I'd see my little lady getting killed...
The sun had dissapeared when we both saw the Docker
Getting flash-backs of my high-school locker
Nadia, She fought with the Demon but She lost -
The Docker picked her up... and bit Her head off.
Running down the cobbled streets, the skies are grey
above
I just witnessed a Monster eat the nugget of my love
Nadia, She's gone... and now I'm all alone
Don't know what to do without Her, or what's going on.
Hiding in the cellar of The Queen's Head hotel
What the fuck has happened, did I die and go to Hell...?
Everything was happy now it's all gone inside out
I don't know what that Creature was, but want's to take
me out...
I tightly hold an axe, I keep it close up by my side
'Cos I can see and hear the Dockling walking 'round
outside...
Roaring at the moon... it's like a giant ape
How many peoples lives can this Nightmare Creature
take.....?

This is my Worst Day Out and I wanna go home...
All the lines are dead - can't use the phone.

This is my Worst Day Out and I wanna go home...
Ajax Widowmaker... I'm all alone.
This is my Worst Day Out and I wanna go home...
All the lines are dead - I can't use the phone.
This is my Worst Day Out and I wanna go home...
Ajax Widowmaker... and I'm all alone.

I'm limping down the streets because I'm injured 'cos I
ran
I drag my axe behind me when I see a rusty van
I try to get inside it, but it's locked and even worse -
I see a couple Dockers and a Zombie in a hearse
I cannot run no more - or else my leg'll snap
I quickly swung my axe into the nearest Docker's back
It didn't have affect - it banged me in the jaw
I landed in a bloody heap and twitching on the floor
Gradually the Dockers and the Zombies got closer
I looked and I saw a Black Saturday poster
Thinking 'bout my homies and the things They would
have done
I got up from the floor... and used my Dueling gun...
Shot a massive hole into the motherfuckers face
It gave a giant groan and landed on its fucking face
I take a sip of Bunderburg just as I load the gun
I may as well fight off the others if I killed the one...
A Zombie grabbed me from behind and tried to bite my
neck
I didn't let it get me... and on that You can bet.
I flipped it to the floor - it landed on its back
I chopped its fucking head off with my buddy Mr. Axe
I'm jumping in the hearse, I want to get away so quick
It's been a shitty day, mz girl is gone and so's my
clique
And as I'm driving down the road, I'm shouting
something out...
.....This is my Worst Day Out.....

This is my Worst Day Out and I wanna go home...
All the lines are dead - can't use the phone.
This is my Worst Day Out and I wanna go home...
Ajax Widowmaker... I'm all alone.
This is my Worst Day Out and I wanna go home...
All the lines are dead - I can't use the phone.
This is my Worst Day Out and I wanna go home...
Ajax Widowmaker... and I'm all alone.

--- I didn't know what it's all about (Worst Day Out! My
Worst Day Out!)
But our lovely morning out was totally fucked somehow
I could never have been prepared if I tried
But I guess I lied when I told Her we would have a good

time...

--- I didn't know what it's all about (Worst Day Out! My Worst Day Out!)

But our lovely morning out was totally fucked somehow
I could never have been prepared if I tried
But I guess I lied when I told Her we would have a good time...
