Hey you, how you doing?
I wanna know you, hey what your name is
I got a secret exhibition, you should take it
I'm on the floor, ready to go, what you thinking?
So baby, let's keep it and I had a tough day
Can you fix it? Oh
I had too much shit on my brain today
And I just wanna, wanna get away, yeah

Baby let's party all damn night
I wanna feel the world come alive
I wanna forget everything all around me tonight
So can your bring me back to life?
So will you just
Touch me, please me, leave me
Love me, kiss me all all over
Touch me, please me, leave me
Love me, kiss me all all over
Touch me, please me, leave me
Love me, kiss me all all over
Touch me, please me, leave me
Love me, kiss me all all over

So baby, let's keep it real tonight
Cause I'm a bad bitch, I know what I like
I want that dirty, pretty, rough, bad boy type
I wanna get turned up, sky high

I had too much shit on my brain today
And I just wanna, wanna get away, yeah

Baby let's party all damn night
I wanna feel the world come alive
I wanna forget everything all around me tonight

So can your bring me back to life?
So will you just
Touch me, please me, leave me
Love me, kiss me all all over
Touch me, please me, leave me
Love me, kiss me all all over

Touch me, please me, leave me
Love me, kiss me all all over
Touch me, please me, leave me
Love me, kiss me all all over

I know, I know you're making me crazy, you're making
me crazy
Just dance with me baby
I know, I know you're making me crazy
Just dance with me baby
You're making me crazy
Don't stop baby keep it going on, baby keep it going on
Make it last a little longer
Don't stop baby keep it going on, baby keep it going on
Make it last a little longer

Baby let's party all damn night
I wanna feel the world come alive
I wanna forget everything all around me tonight
So can you bring me back to life?
So will you just
Touch me, please me, leave me
Love me, kiss me all all over
Touch me, please me, leave me
Love me, kiss me all all over
Touch me, please me, leave me
Love me, kiss me all all over
Touch me, please me, leave me
Love me, kiss me all all over.
