"Digital Murder"

Visit "[Digital Murder](#)" on MotoLyrics.com

I am stuck in front of the telly
Watching nothing, I see it all
I live my life just like a zombie
Where my only joy is my remote control

It's a digital murder

I see murderers and their victims
I see dictators and world wars
But nothing really affects me

I'm just sitting there... getting bored

Spend my life in a black hole
Where my time is running out
Switching channels every second
I just don't care what it's all about

Digital murder... it's a murder!
