"It's Not Up To You"

It's not up to you, to decide what's wrong or right
It's not up to you, to depart the black from white
Cause you are not the jury and you are not the judge
And that you think so bather me quite much
And I will convict you as you convict me...

You're just a music racist
And I am no racist friend

It's not up to you, to tell me what to do
It's not up to you, oh no it's not up to you
Cause you are not the leader and you don't set the
rules
You can't ever stop me cause you don't have the tools
And I must tell you straight from my heart...
