"Out With The Boys"

Quality time with a new bought record
Playing on the gramophone
After a busy week
It's so damn nice to be alone

Enjoying a new made cup of coffee
With the jacket in my hand
I am totally in to the beat
I'm in a far away land

There's nothing that could drag me away from here
I get distracted by the phone, I answer and I like what I

Hear

I'm going out with the boys tonight

Sweating it out in the practice room and the hour is
Getting late
And with a twenty mile drive to get back home
It's sometimes hard to stay awake

Finally home in my sofa watching some TV
I can tell you this my friend, there's no place else I'd
Rather be
